

## Who Strikes First in the First Round of Combat?

1. Polearms strike before all else in the first round of combat, whether charging or charged:

- Warriors armed with Spears or Halberds Strike First.
- If both sides are armed with Spears/Halberds, compare Initiative instead. (*Between warriors armed with Spears/Halberds only.*)

2. After polearms, warriors who Charged this turn strike first.

**Note Well:** Warriors with the 'Quicksilver' Speed Skill always circumvent strike order and compare Initiative instead.
